

# Teaching English to Speakers of Other Languages

## Module 2 Assignment

- Name: Ebrahim Tahasoni
- Student number: 5005
- Date of submission: 3<sup>rd</sup> October 2010

Tutor's comments:

### Question 1

This is a very good piece of work well done. You have identified most errors (a) and have used an appropriate marking scheme. In (b) you have identified the correct language areas. You have also identified valid reasons explaining why students can sometimes have problems with grammar and lexical structures in English.

### Question 2

You have passed this question, there was one mistake which you can go back and try to self correct but otherwise there were no problems.

### Question 3

In (a) your answers are correct and in (b) you have transcribed the phonemes correctly. You have shown that you have a good knowledge of the phonetic alphabet. You have successfully completed this question. An excellent effort.

### Question 4

You clearly understand the importance of helping the students practise the four key language skills. The clear headings and objectives and activities show that you have considered this question carefully. This is a good piece of work and you have successfully completed Module two of the TESOL course. Well done.
